Served as coffee, the new coffee substitute known to grocers everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc. have been so cleverly blended as to give a wonderfully satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 to 30 minutes boiling. Sold by all Grocers.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

Sold at City Drug Store

There will be no preaching services at Stone Chapel the next few Sundays on account of the absence of Rev. Beattie. Sunday school will be conducted as usual.

This week we received some news items, good ones too, which we cannot publish for the reason that the writer did not sign his name. We do not publish the names but we must know from whom the items come.

Dr. F. O. Hellier, the new president of The School of the Osarks, arrived last Saturday and has since been busy making arrangements for the coming school year. He comes from Highland University of Kansas. He is a graduate of Michigan University and has taken courses at Yale and the universities of the Old World.

County Supervision.

Recognizing that supervision is an experiment in most of the counties of Missouri, and that many teachers and school officers are somewhat at sea as to just what manner of man they may expect the superintendent to be, I venture the assurance that the superintendent is quite as far out upon the ocean as they.

True, it is only reasonable that the teachers have more or less anxiety as to what his attitude may be, especially in relation to them and their school, yet it is quite as reasonable to suppose that, if the superintendent is the character of man he should be, there is some anxiety weighing upon his heart as well.

While teachers look forward to the superintendent's visits with these questions on their hearts. "How will he appear? Will he come as a critic, or will he come with his heart brimming full of sympathy? Will he come, manifesting authority as a superior, or will his mission be one of helpfulness, a blessing and a benediction?" The superintendent's heart yearns for a warm welcome from teacher, pupil and patron, and for a hearty cooperation in the great work of exterminating ignorance and ameliorating crime. In conclusion let me ask that we measure each other's purposes by the great land for which we should all labor: The greatest good possible for any boy and every girl in our county.

Your obedient servant,
A. J. HICKS,
Superintendent of Public Schools
